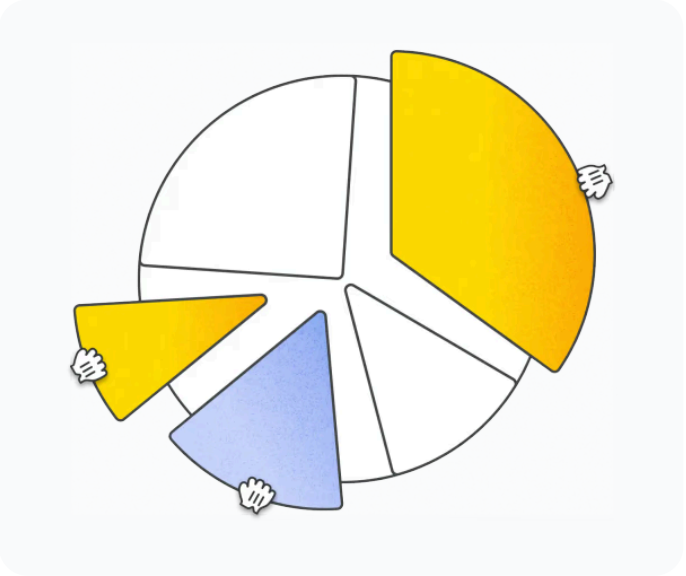
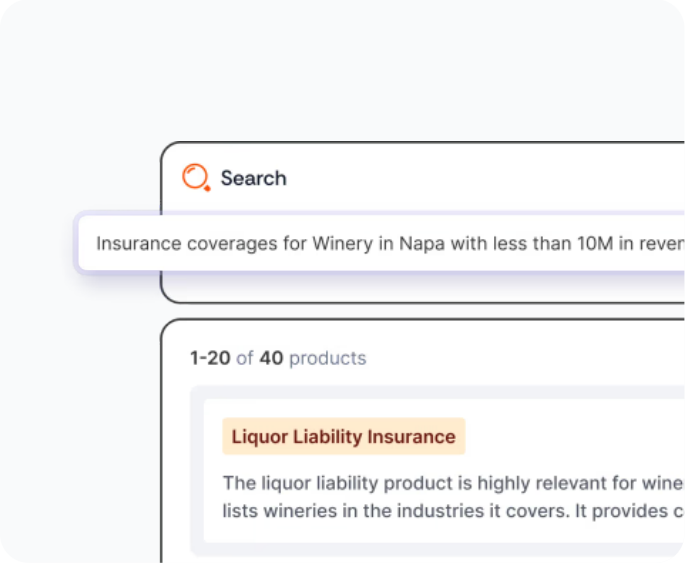
Deep Insights & Analytics

Transform raw data into strategic advantages with our comprehensive analytics suite. Get detailed insights into performance metrics, client behavior patterns, and premium trends through interactive visualizations and AI-powered analysis, enabling informed decision-making and precise strategic planning for sustainable growth.



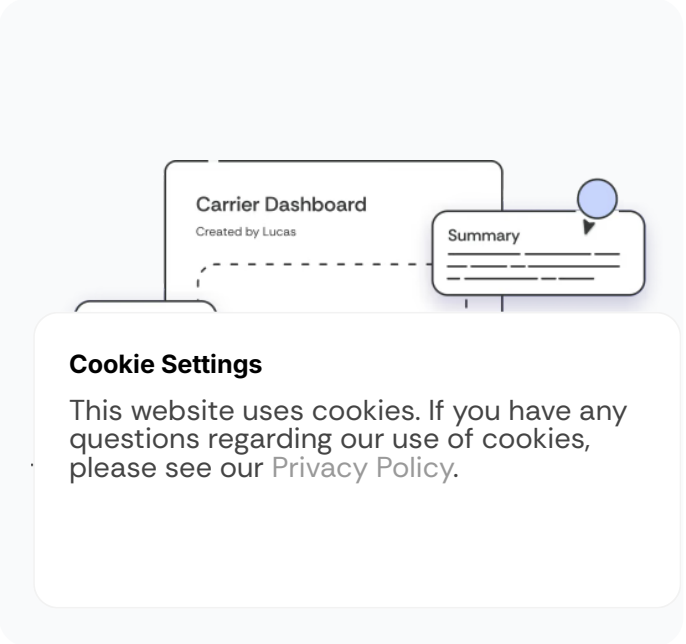


Appetite Search

Revolutionize your market matching process with our sophisticated AI engine. The system analyzes multiple factors including NAIC codes, SIC classifications, GL requirements, and WC classes to precisely match risks with carrier appetites, dramatically improving quote alignment and acceptance rates while reducing placement time.

Dashboard & Reports

Access powerful business intelligence through customizable, real-time dashboards and detailed reports. Monitor portfolio performance, track submission trends, and analyze revenue metrics with interactive visualizations that provide both high-level



overviews and granular insights for data-driven decision making.

Revenue Opportunities

Unlock hidden revenue potential with our intelligent opportunity detection system. Automatically identify cross-sell and upsell opportunities while receiving proactive alerts for client retention risks, helping you maximize revenue from your existing book of business through data-driven relationship management.

Workflow & Process Automation

Transform your operations with intelligent workflow automation that eliminates repetitive tasks and reduces manual intervention. Our system ensures consistent process execution while adapting to your unique business rules, significantly improving efficiency and allowing your team to focus on high-value activities.

Secure Data Sharing

Facilitate seamless collaboration with enterprise-grade secure data sharing capabilities. Our platform ensures all sensitive information remains protected with advanced encryption and granular access controls, while enabling efficient communication and data exchange between authorized team members and stakeholders.

Built with Data Security and Privacy

Secure Access Controls

Advanced role-based access controls and authentication mechanisms ensure that your data can only be accessed by authorized personnel within your organization.

Customer Data Stays Pri

Your data is exclusively yours—Outmarket does not use any customer data to train, fine-tune, or improve underlying AI models, safeguarding your information from external access.

Encrypted Data Protectio

All data processed and stored by Outmarket is fully encrypted, ensuring its security and integrity at every stage.
